Who we are

At Lighthouse we create spaces of belonging; serving the vulnerable, socially isolated and people who have been marginalised by providing practical and holistic support. With healthy relationships and creating community at the forefront of what we do, we seek to point people towards a hope filled future.

We do this through our hyper-local programs in which we respond to the proximate needs of that local community. Alongside this, all of our programs are run by volunteers who live in the local area.
